

Product Information Sheet

D-Mesh 330

This is a special pvc coated open weave mesh material that is both light weight, rip-proof and dramatically reduces wind resistance. This material has a removable vinyl release liner to reduce ink spoil and is designed to maximise surface area and give enhanced image and colour reproduction. Offering good temperature, weather and impact resistance this mesh material is suitable for the most demanding external applications.

Product Type	PVC open weave mesh for solvent inkjet & UV printing.
Weight	280gsm
Base Fabric	500 x 1000 D PET
Tensile Strength	1400 N/5cm
Tear Strength	120 N/5cm
Storage	Under normal conditions - i.e. 50% relative humidity and room temperatures of approx. 20°C this product in its original packaging can be stored up to 12 months after delivery.
Note	The technical information here is true to the best of our present knowledge. However, it shall not constitute a guarantee for any specific product feature and shall not establish a legally valid contractual relationship. We recommend the customer to test the suitability of the product for the required purposes under original conditions
